Number SA1007NW for a list of approved

Model:

airplane models and applicable airworthiness regulations.

Description of the Type Design Change: Installation of a Low Thrust Detector System (L.T.D.S.) in accordance with Advanced Aero Safety Installation Drawing List No. 101 dated July 30, 1980, and Drawing No. 101-1000 dated July 30, 1980, or later FAA approved revisions.

Limitations and Conditions: Approval of this change in type design applies to the airplane models listed on the AML. This approval should not be extended to other aircraft of these models on which other previously approved modifications are incorporated unless it is determined by the installer that the relationship between this change and any of those other previously approved modifications, including changes in type design, will introduce no adverse effect upon the airworthiness of that aircraft. A copy of this Certificate, the appropriate FAA Approved Airplane Flight Manual Supplement and AML SA1007NW, must be maintained as part of the permanent records for the modified aircraft.

If the holder agrees to permit another person to use this certificate to alter the product, the holder shall give the other person written evidence of that permission.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.
